- NOTES:** 1) Maximum and Minimum values now include the recently completed 30-year period, 1991-2020.
 2) The non-decadal 30-year period of 1895-1924 (which greatly overlaps the decadal period 1901-1930) is included to cover the entire period of state data available.
 3) These tables are created by the 10th day of the month and are subsequently updated as new data become available.
 4) The 30-Year Average for 2001-2030 is a running average for the individual months but not for the Annual or Seasonal totals until each of those periods is complete. The Maximum and Minimum of Averages are updated when each month, season, and year is complete.

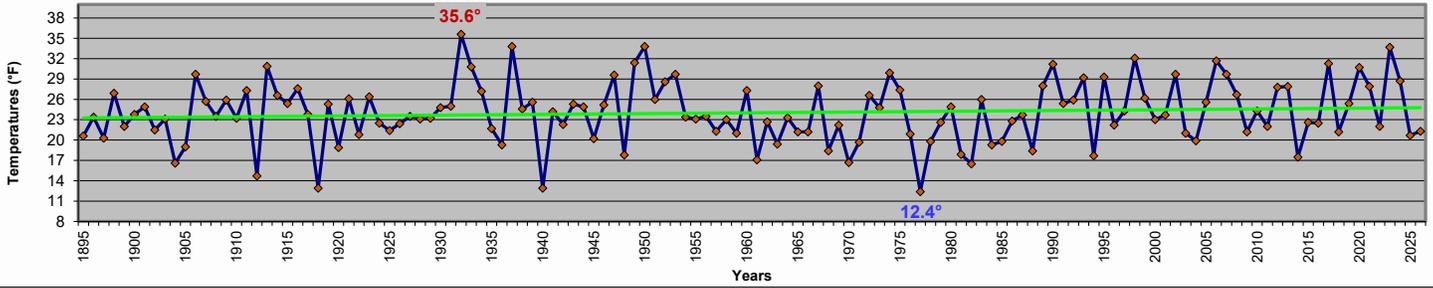

NOTE: Statewide 30-Year-Average Chart Trendline, shown in **bright green**, is Linear, with associated equation and R-Squared values portrayed.
