Data through 2/24/2026, Updated 2/25/2026

DATA SOURCE: 1) National Weather Service - Baltimore/Washington, NOW Data: <https://www.weather.gov/wrh/Climate?wfo=lwx>

2) National Centers for Environmental Information (NCEI), Local Climatological Data: https://www.ncdc.noaa.gov/IPS/lcd/lcd.html?_page=0&state=DC&target1=Next+%3E

3) National Weather Service, Washington Daily Normals, Means, and Extremes: <https://www.weather.gov/lwx/iadnme>

DATA NOTE: 1) Monthly extreme Maximums are highlighted in **bold red**; Minimum extremes are in **bold blue** (Annual and Seasonal amounts only due to the numerous zeros for the Monthly category).

2) Some sources include Hail as Snowfall but each day and event has been investigated and all Hail reports have been removed from this table, as far as can be determined.

3) + indicates more than one occurrence in the archive for that date, where known.

4) Cells with gray backgrounds are for data that is missing, incomplete (not figured into averages), or future, to be updated accordingly.

5) For Nov. 1962, Dulles only reported data after the 15th, during which a Trace was reported. During this earlier period of missing data, nearby COOP stations reported 3.0" at Manassas and Falls Church, and 2.5" at Fairfax. The month will have to remain without data.

STATION LOCATION	PERIOD OF RECORD
Dulles International Airport: 1 Saarinen Cir, Dulles, VA	4/1/1960-5/31/1961
	4/1/1962-9/30/1962
	12/1/1962-Present
