Data through 4/30/2026, Updated 5/13/2026

DATA SOURCE: 1) NOAA National Centers for Environmental Information (NCEI), Climate at a Glance: Statewide Time Series, published May 2026, retrieved on May 13, 2026 from: <https://www.ncel.noaa.gov/access/monitoring/climate-at-a-glance/>  
 2) Northeast Regional Climate Center (NRCC): <https://www.nrcc.cornell.edu/>

<https://www.ncel.noaa.gov/access/monitoring/climate-at-a-glance/>

NOTES: 1) *Italic values* are ties, with the most recent occurrences at the higher rank; The #10 rankings contain all of the ties at that placement.

2) The "Climate at a Glance" data is usually created by NCEI by the 10th day of the month and is subsequently updated as new data becomes available (some previously published data may get revised due to later/delayed data being assessed and incorporated). The tables, above, are updated as soon as possible once the data has been made available.
