NOTES: 1) Baltimore's official weather records shifted from downtown Baltimore to Baltimore/Washington International Thurgood Marshall Airport (formerly Friendship International Airport) on July 23, 1950.

2) The Seasonal and Calendar-Year 30-Year Averages may differ slightly due to the inclusion/exclusion of a few months due to the slightly differing time periods, e.g., December 1990 is not included in the 30-Year Period 1991-2020 but is included in the 30-Season Period 1990-1991 to 2019-2020.

3) Data table values in **bold red** indicate monthly or seasonal maxima, **bold blue** indicates minima only for the Annual and Seasonal totals.

4) Cells with this gray background indicate missing or incomplete periods and are not figured into calculations of Averages.

5) *Italic values* with this color background indicate current, incomplete periods and are not figured into calculations of Averages.

6) Data is available for Days with Snowfall ≥ 0.1 Inch in Baltimore beginning in January 1871 but can currently only be found for Days with Snowfall ≥ 1.0 Inch beginning in March 1892. Days with Snow Depth ≥ 1.0 Inch is now available back to January 1893.

7) On 2/12/2025, between Midnight and 2:00 AM, a total of 0.04" of SWE was reported by the ASOS during "Light Snow" with a temperature of 30" during the entire 2 hours. The snow total reported for 2/12/2025 was only a Trace when accumulation likely occurred, at least 0.1" or slightly more. The monthly and seasonal values on this table are possibly an undercount.
