STATION LOCATION	PERIOD OF RECORD
Dulles International Airport: 1 Saarinen Cir, Dulles, VA	4/1/1960-5/31/1961
	4/1/1962-9/30/1962
	12/1/1962-Present

STATION DATA SOURCE: NOAA, NCDC, "Local Climatological Data, Annual Summary, Washington, DC (KIAD)", 2019

STATION NOTES: Automated Surface Observing System (ASOS) implemented at IAD on 5/1/1996.

- DATA NOTES: 1) *Italicized values* are ties, with the most recent date at the higher rank.
 2) For Nov. 1962, Dulles only reported data after the 15th, during which a Trace was reported. During this earlier period of missing data, nearby COOP stations reported 3.0" at Manassas and Falls Church, and 2.5" at Fairfax, which would likely would have placed that month in the November top-10 snowist. The month will have to remain without data.
