[MD Department of Emergency Management](#)

NOTE: The weblinks to these stations are sourced from the National Weather Service's Time Series Viewer pages for data covering the past 72 hours. New station names that portray "coming soon" might require a bit of time for the data to be ingested and updated on that viewer. In order to access these newer stations' data more quickly, short-term data might already be available directly from the Maryland Mesonet website in a different format here:

<https://mesonet.umd.edu/>
